Software as a Service Agreement

These terms and conditions govern your access to the ELEARNINGFORCE Services (“EFI Services”) such as LMS365 and Weekly10 and is an agreement between ELEARNINGFORCE International ApS (“EFI”) and you as the customer (“you” or “Customer”). The agreement (“SAAS Agreement”) consists of the following documents:

- This Software as a Service Agreement between EFI and the Customer
- Service Level Agreement (“SLA”) [Schedule 1](#)
- ELEARNINGFORCE Data Processing Agreement (“DPA”) [Schedule 2](#)

To subscribe for our EFI Services, you must contact EFI for a quote (“Quote”) based on your user license needs. You may order on-line for certain EFI Services. The SAAS Agreement is an integrated part of the Quote, and when accepting the Quote, you will also accept the SAAS Agreement and its terms and conditions. Your standard terms and conditions, or other deviations from the SAAS Agreement, shall not apply, even if attached to the Quote upon your acceptance.

If you register for a Free Trial License, the SAAS Agreement will also govern that Free Trial License. You may choose to convert to a Subscription at the end of the Free Trial Period when this has been confirmed in the Quote and, for certain EFI Services, you may automatically convert to a paid Subscription when you submit your payment details to EFI, always conditioned upon EFI’s acceptance.

THE SAAS AGREEMENT AND ITS TERMS TAKE EFFECT WHEN YOU HAVE EXECUTED AND ACCEPTED A QUOTE FROM ELEARNINGFORCE INTERNATIONAL APS OR HAVE OTHERWISE CONFIRMED YOUR ACCEPTANCE TO THE SAAS AGREEMENT. YOU MAY NOT USE THE SERVICE UNLESS THE SAAS AGREEMENT HAS BEEN CONFIRMED ACCEPTED.

Your explicit signature to Schedule 2 the DPA is required. You will find the current DPA at <https://lms365.com/data-processing-agreement/> which forms an integrated part of the SaaS Agreement. The EFI Services are generic products and the DPA sets forth the obligations for data processing activities performed by EFI when providing the EFI Services. EFI makes the commitments stated in the DPA to all customers with licenses to our EFI Services, and you agree that the DPA in force at the time of your purchase or renewal of Subscriptions governs the processing and security of all personal data which is stored and processed through the EFI Services you subscribe to. If you as data controller require any further action to protect personal data, you must contact EFI to agree on additional actions. All such actions must be agreed upon in writing as a supplement to the DPA before EFI can submit and adhere to such actions.

Please read through the SAAS Agreement and add your signature to the DPA. You represent to us that you are lawfully able to enter into this SAAS Agreement, and if you are entering into this SAAS Agreement on behalf of a company or other legal entity, you represent that you have the authority to bind such entity to the SAAS Agreement, and the terms “you” shall refer to such entity. If you do not have such authority, or if you do not agree with the terms and conditions, you must not accept this SAAS Agreement and, you may not use the EFI Services.

When you renew or purchase a new Subscription for licenses to a Service, the then-current SAAS Agreement apply.

This SAAS Agreement with its Schedule 1 and Schedule 2 replaces all previous terms and conditions for license to the EFI Services and Support Services and shall apply to all purchases or renewals of Subscriptions as of 1 November 2023.

You will find previous versions and amendments at <https://lms365.com/lms365-saas-terms/>

EFI also processes personal data for EFI's own purpose related to customer handling, administration, visitors on website and for other lawful processing as a data controller. You will find EFI's Privacy Policy on front page of our website <https://www.lms365.com/>

2.1 Service Requirements

The LMS365 (Learning Management System) software, developed by ELEARNINGFORCE International ApS, requires a modern web browser that supports cookies and JavaScript.

LMS365 currently supports the browsers & clients listed in this guide: <https://helpcenter.elearningforce.com/hc/en-us/articles/360001496669>. These are subject to change without notice in EFI's sole discretion.

In the event, that the customer cannot meet the technical requirements listed with regard to employed browsers, EFI will be under no obligation to provide the support services described in Schedule A.

2.2 Requests Requirements

To receive support services and for EFI to maintain the Service Level agreed, the customer shall cooperate with EFI to resolve support incidents.

The customer shall have adequate technical expertise and knowledge of their configuration of EFI's software and provide relevant information to enable EFI to reproduce, troubleshoot, and resolve the incident or issue identified by the customer.

As a minimum, the following information shall be provided by the customer, whenever possible, to ensure EFI's ability to address support requests:

- Detailed description of the issue with as much detail as can be provided.
- The URL of the platform where the issue is occurring.
- The error message provided and exact steps to reproduce the error.
- The user(s) that are affected by the issue.
- Applicable screenshot or video capture.

Requests lacking this information will not be considered as part of the Service Level agreement.

General Responsibilities of the customer

The customer will be responsible for:

- Reporting errors promptly.
- Providing sufficient information for EFI to duplicate the error, assess the situation, and undertake any needed or appropriate corrective action.
- Alternatively, following instructions or suggestions from EFI regarding use, maintenance, upgrades, repairs, workarounds, or other related matters.
- Designating a member of its staff to serve as the customer's system administrator to contact EFI with support issues.

EFI's successful response and provision of Helpdesk Services is subject to the customer's assistance and compliance, including:

- At EFI's reasonable request, the customer will provide EFI with reasonable access to the customer's personnel and equipment during normal business hours to discuss and assess any problems or requests for assistance.
- The customer will document and promptly report all errors or malfunctions of the Software Services to EFI.

It is the customer's responsibility to carry out procedures necessary at the customer's facilities for the rectification of errors or malfunctions within a reasonable time after such procedures have been received from EFI.

Reproducing Errors

EFI must be able to reproduce errors in order to resolve them. The customer agrees to cooperate and work closely with EFI to reproduce errors, including conducting diagnostic or troubleshooting activities as reasonably requested and appropriate. Also, subject to customer's approval on a case-by-case basis, users may be asked to provide remote access to their EFI account and/or desktop for troubleshooting purposes.

Exclusions

Issues that arise in the following categories are outside of the scope of support offered above, and will have no Service Level Agreement attached:

- Custom Cascading Stylesheets (CSS).
- Support to third party authoring tools.
- Support to third party system or platform integration, where the integration is not developed or managed by EFI.
- Supporting in troubleshooting of E-Learning Content packages built with third party authoring tools.
- Custom built authentication methods between EFI and the customer where such method is built from the customer and not maintained by EFI.

Additional Charges

If a reported problem is outside the scope of our Helpdesk Services, EFI will notify the customer to that effect and reserves the right, upon the customer's confirmation, to move forward and to charge the customer at EFI's then current standard hourly rates for all associated work.

The customer agrees to pay EFI promptly for this work upon receiving an invoice; provided, however, that EFI shall inform the customer in advance of the possible incurrence of such fees and the customer shall have pre-approved the same.

2.3 Uptime Availability

If EFI fails to achieve the availability percentage for two (2) consecutive calendar months, then, as the customer's sole remedy for such failure, the customer will be granted Service Credits.

Service Credits are calculated as a percentage of the total charges paid by the customer to EFI in the region affected by unavailability in accordance with the schedule below.

In the event that the customer elects to terminate this agreement for failure to achieve the Availability Percentage for six (6) consecutive calendar months within the notice period given below, then no refunds shall be issued with respect to such affected months.

Monthly Uptime Percentage	Service Credit Percentage
Less than 99.7% but equal to or greater than 99.0%	10%
Less than 99.0%	30%

EFI will apply Service Credits only against future payments due from the Company. Service Credits will not entitle the customer to a refund or other payment from EFI. Service Credits may not be transferred or applied to any other account. Unless otherwise provided in the EFI Agreement, the customer's sole remedy for any unavailability, non-performance, or other failure by EFI to provide Uptime is the receipt of a Service Credit (if eligible) in accordance with the terms of this SLA.

To receive a Service Credit, the customer must submit a claim by within 30 days after the reported issue via a support claim ticket and email to designated Customer Success team reporting ticket number. If the Monthly Uptime Percentage of such request is confirmed by EFI and is less than the Service Commitment, then EFI will issue the Service Credit to the customer within one billing cycle following the month in which your request is confirmed by EFI. The customer's failure to provide the request and other information as required above will disqualify the customer from receiving a Service Credit.
